

A Letter of Introduction for the _____ Fund Raising Projects

Greetings:

Please allow me to introduce myself. I am _____

I am now involved in a non-profit fund "**A Fair World: Fair Trade Artisans House Fund**" that sells Recycled Paper Jewellery for artisans in Uganda. The FT Artisan House Fund earns money to build the families their first home. The Fair Trade wage helps the artisans with providing better education, medical, and nutritious food for their children.

Many religious organizations, clubs, high school and college student organizations need **mission-oriented projects** to raise money. Look at our website (www.afairworld.org) and see the pictures.

A **socially conscious group** could help the Quality of Life of these people of poverty by supporting the Fair Trade Model with the Recycled Paper Bead jewellery. Educational and marketing material will be provided to any student group- a class, a club, an economics class, a social group-- about the Uganda people and what civil war did to perpetuate poverty. Do you know a group that would like to help someone and also like to benefit 10% or more from the project. Linda Edwards, Founder of A Fair World, will talk with you any time.

The jewellery is beautiful and each bead is a Work of Art. For an example of a product, a long string of beads sells for \$20.

Holidays or events are a great time to start, for the beads last forever, after the flowers have withered (sample statement)

I hope to hear from you, either by phone (_____) or email.
Best wishes,
