UNI COPPER & CRYSTAL COLLECTION

Artisans of Copper-and-Glass Bead Jewelry and Handbags

Linda, our proprietor, just returned from South Africa, having adopted a number of new artisan lines of craft jewelry, all for retail and wholesale to the U.S., Europe, and Earth women.

The Bead and Copper Crocheted bags and jewelry – 9 styles - are made by both men and women who live in central South Africa, mostly near Durban on the east coast. These artisans are combining the work of Zulu beaders and what they have learned from master craft jewelry makers in Zimbabwe.

Lots of creative beadwork is done in Africa. Originally the Zulu used beading as a code. Colors and shapes indicate delivery of certain messages and communications among women and even among bride and groom.

This totally unique group of Fair Trade handbags, bracelets, necklaces, and brooches are handcrafted out of Czech bead and South African copper wiring.

The Collection comes in five colors schemes:

Midnight, Sunset, Ocean, Berry, and African

Small Handbag in the “Sunset” color with a shoulder strap \$64

The **Medium Handbag** of “Midnight” color, glass beads & copper wire \$68
